

GCSE Intermediate (2) D/C

Summer Term Year 9

SUMMER (1/2)

1. The Rules and Uses of Indices
2. Understanding number and place value

GCSE Intermediate (2) D/C

AUTUMN Term Year 10

AUTUMN (1)

3. Fractions, Decimals & Percentage
4. Algebraic Manipulation
5. Pythagoras' Theorem

AUTUMN (2)

6. Probability (Maths Only)
7. Money and Mathematical information
in everyday life
8. Specifying and planning statistical tests
9. Graphs

GCSE Intermediate (2) D/C

SPRING Term Year 10

SPRING (1)

10. Transformations
11. Construction and Loci
12. Construct and interpret diagrams using measures of averages
13. Measures of Averages and Spread/Comparing distributions

SPRING (2)

14. Angle Facts
15. Congruency and Quadrilateral
16. Similar Shapes
17. Solving Linear Equations

GCSE Intermediate (2) D/C

SUMMER Term Year 10

SUMMER (1)

- 18. Compound Measure
- 19. Perimeter, Area, Volume
- 20. Accuracy

SUMMER (2)

EXAMS – MATHS & MATHS NUMERACY

GCSE Intermediate (2) D/C

AUTUMN Term Year 11

AUTUMN (1)

21. Algebraic manipulation (quadratics)
22. Nth Term
23. Probability 'AND' 'OR' Rules

AUTUMN (2)

EXAMS – MATHS & MATHS NUMERACY

24. Solving Linear Inequalities
25. Solving Quadratic and Cubic Equations

GCSE Intermediate (2) D/C

SPRING Term Year 11

SPRING (1)

- 26. Circle Theorems
- 27. Trigonometry
- 28. Recurring Decimals

SPRING (2)

EXAM PREPARATION & REVISION
